VARIANTE CONSTRUCTIVE JALUZELE

CONSTRUCTIVE VERSIONS FOR BLINDS

1

1. Jaluzele plisate (pleated blinds)

RO ARMONICA mai sunt numite aceste jaluzele montate pe fereastra. ARMONICA mai sunt numite aceste jaluzele montate pe fereastra. Au posibilitate de fixare laterala, culisare pe ghidaj sau ridicare cu arc. Produs Deosebit.

2. Jaluzele verticale

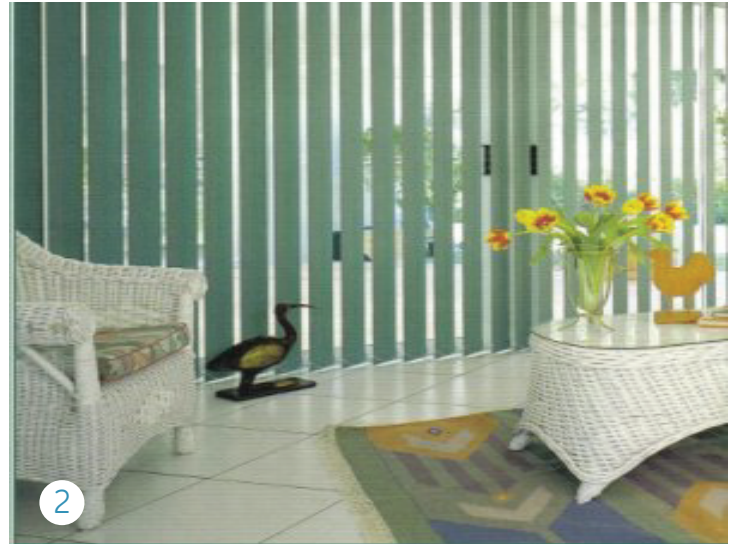

RO MAJORITATEA a votat – jaluzele verticale, lamele 127 mm într-o paleta de modele si culori covarsitoare. Succes intemeiat pe : fiabilitate, pret si oportunitatea de schimbare independenta a lamelelor. Se intretin usor si se strica foarte greu. Produs incredibil.

3. Jaluzele orizontale interior

RO ISTORIA jaluzelelor se suprapune in buna masura cu cea a jaluzelelor orizontale (venetiene). S-au confectionat si din diferite materiale dar solutia cea mai trainica si de succes a fost cea cu lamele aluminiu de 25 mm. Si se incapataneza sa functioneze ireprosabil foarte multi ani.

4. Jaluzele orizontale exterior

RO UMBRIRE exterioara si securitate jaluzele orizontale cu lamele masive. Pot fi protejate astfel cladiri intregi cu suprafete vitrate numeroase. Daca exigentele arhitecturale si de ergonomie o cer – toate jaluzelele unei cladiri se pot comporta ca una singura prin automatizare si programare intrun BMS (Building Management System) . Cladirea se protejeaza singura si-si pastreaza designul exterior prin actionarea sincronizata a tuturor jaluzelelor.

2

1. Pleated blinds

EN Harmonic is called the blinds mounted on window. Have the possibility of fixing lateral sliding or lifting the spring guide. Great product.

2. Vertical blinds

EN The MAJORITY voted vertical blinds, blades 127 mm in a range of patterns and colors overwhelming. Success founded on: reliability, price and opportunity to change the slats. It is maintained easily and breaks down very hard even when handled improperly. Incredible product.

3. Orizontal blinds

EN HISTORY blinds largely overlaps with that of horizontal blinds (Venetian). And they were made of different materials but the best solution and enduring success was with aluminum strips of 25 mm. And it works flawlessly for many years.

4. Exterior blinds

EN Shadow security outside and horizontal venetian blinds masive. Pot be controlled entire buildings with glass surfaces numerous. If architectural and ergonomic requires all shades of buildings to act as a single through automation and programming meet BMS (Building Management System). It protects the building exterior and keeps synchronized act with all the blinds.
